

JEAN DE DIEU MANISHIMWE

Manager, Data Systems & IT | Infrastructure, Cybersecurity, Cloud & DR/BCP

Kigali, Rwanda | +250 788 350 654 | aimejayd2016@gmail.com | linkedin.com/in/jean-de-dieu-manishimwe-10a11761

Profile

IT technology and infrastructure leader with 7+ years in Rwanda's banking sector and regional digital-health programmes. Manages mission-critical infrastructure, cybersecurity controls, cloud and server environments, networking, backup and disaster recovery, IT governance, service management and technology vendors across multi-site operations. Nominated Risk Champion for the IT department at NCBA Bank Rwanda; ISO/IEC 27001 Lead Implementer and ISO/IEC 20000 Lead Auditor. Hands-on with Windows and Linux administration, virtualisation, databases, Python and PowerShell automation, and health-data interoperability (FHIR, DHIS2). Leads teams and delivers secure, resilient, well-governed services.

Technical Skills

Infrastructure	Windows & Linux servers, Active Directory, VMware, Hyper-V, SAN/storage, LAN/WAN, Cisco CCNA
Cloud & DevOps	AWS, Microsoft Azure, hybrid cloud operations, Terraform (IaC), Docker
Cybersecurity & Risk	ISO 27001 controls, access management (RBAC, privileged access), patching, server hardening, IT risk assessment
DR & Business Continuity	DR planning and testing, backup and recovery, replication, Business Impact Analysis, RTO/RPO
Data & Systems	Oracle, SQL Server, MySQL, PostgreSQL; SQL; data integrity; monitoring and reporting dashboards
Automation	PowerShell, Bash, Python, Ansible, Azure Automation
Governance & Service	ISO/IEC 20000, ITIL incident, problem and change management; SLA and vendor management
Leadership	Team leadership and mentoring, budget planning, stakeholder and executive reporting

Professional Experience

Manager, IT Infrastructure & Security

NCBA Bank Rwanda PLC • Full-time • Jun 2026 – Present

- Lead infrastructure, security, business continuity and disaster recovery for mission-critical banking systems across a multi-branch network.
- Own DR and BCP: develop, maintain and test recovery plans; run DR drills and recovery tests against RTO/RPO targets; carry out Business Impact Analysis and single-point-of-failure reviews.
- Oversee backup and recovery across storage, SAN and virtualised servers; monitor backup jobs and resolve failures.
- Serve as nominated Risk Champion: assess ICT risks, review control frameworks across operating systems, applications, databases and networks, and advise senior leadership.
- Enforce ISO 27001-aligned controls: access management (RBAC, privileged access), patching, server hardening and security monitoring.
- Manage technology vendors, Level 2/3 support partners and SLAs; act as escalation point for major incidents and report to senior management.
- Lead and develop the IT operations team; manage budgets, projects and tool rollouts.
- Led NCBA Rwanda's ISO/IEC 20000 (IT Service Management) certification within the NCBA Group ITSM programme.
- Introduced PowerShell and Bash automation for server health checks, backup verification and compliance reporting, reducing manual effort.

Assistant Manager, IT Infrastructure & Security

NCBA Bank Rwanda PLC • Full-time • Aug 2024 – Jun 2026

- Managed enterprise infrastructure (servers, networks, virtualisation, storage) supporting high-availability banking systems.
- Coordinated incident, problem and change management; supported ISO 27001 and banking regulatory compliance.
- Administered AWS and Azure environments, applying Infrastructure as Code and scripted automation.

AI & Automation Consultant

Oak Industries Ltd • Part-time • 2024 – Present

- Built a multilingual (Kinyarwanda, French, English) AI classification system for customer feedback, with a Python backend, API integrations and cloud deployment.
- Delivered AI-assisted tools and workflow automation for private-sector clients.

Technical Lead

- Led architecture and delivery of a pan-African digital-health platform aligned with Africa CDC's digital-health vision, built on Azure and AWS (Python/Django, Node.js, React).
- Implemented FHIR and DHIS2 health-data interoperability and API integrations; oversaw performance, security and continuous improvement.
- Coordinated engineers, data experts and health-policy stakeholders to deliver integrated digital-health systems.

Senior IT Engineer / System Administrator

Cogebanque PLC → Equity Bank Rwanda (merger) • Full-time • Jan 2023 – Aug 2024

- Administered servers, storage, virtualisation, networks and databases supporting core banking applications.
- Implemented backup, replication, disaster recovery testing and security hardening to protect critical financial data.
- Led infrastructure integration during the Cogebanque–Equity Bank merger with no customer-facing downtime; coordinated vendors and supported compliance audits.

Senior IT Specialist

RTI International (USAID-funded programme) • Full-time • Jan 2020 – May 2022

- Delivered ICT infrastructure, support and security across multi-site operations for a USAID-funded programme.
- Introduced structured IT service processes, asset management and user training; managed vendors and ensured donor compliance.

Education

MBA in Artificial Intelligence • Nexford University • In progress

BSc Computer Science • African Leadership University

BSc Computer Science • University of Kigali

Certifications

Security & Governance	ISO/IEC 27001 Lead Implementer • ISO/IEC 20000 Lead Auditor • Google IT Support & Cybersecurity
Cloud & Networking	AWS Certified Cloud Practitioner • Microsoft Azure Fundamentals • Cisco CCNA • Microsoft 365 Administration
In progress	PMP • CISSP

Languages

English (fluent) • French (working) • Kinyarwanda (native)
