

JEAN DE DIEU MANISHIMWE

Manager, Data Systems & IT | Infrastructure, Cybersecurity, Cloud, DR/BCP & Data Systems

Kigali, Rwanda | +250 788 350 654 | aimejayd2016@gmail.com | linkedin.com/in/jean-de-dieu-manishimwe-10a11761

Profile

IT technology and infrastructure leader with 10+ years in technology, including banking and enterprise IT. Experienced in infrastructure management, cybersecurity, cloud and server operations, networking, disaster recovery, IT governance and technology service delivery. Combines enterprise IT leadership with hands-on database work (7+ years in DBMS), software development, API and health-data integration, automation and dashboards. Manager, IT Infrastructure & Security at NCBA Bank Rwanda and nominated IT Risk Champion; led NCBA Rwanda's ISO/IEC 20000 certification as part of the NCBA Group programme. Holds ISO/IEC 27001 Lead Implementer and ISO/IEC 20000 Lead Implementer and Lead Auditor credentials, with an MBA in Artificial Intelligence in progress.

Technical Skills

Infrastructure	Windows and Linux servers, Active Directory, VMware, Hyper-V, enterprise storage, LAN/WAN, Cisco CCNA
Cloud & Automation	AWS, Microsoft Azure, Python, PowerShell, Bash, Ansible, Terraform, Docker
Cybersecurity & Risk	ISO 27001 controls, access management (RBAC, privileged access), MFA, patching, server hardening, IT risk and audit controls; Rwanda Law No. 058/2021 on personal data protection; BNR and Cyber Security Authority requirements
Business Continuity	Backup and recovery, replication, DR testing, business continuity planning, RTO/RPO validation
Databases & Integration	7+ years in DBMS: Oracle, SQL Server, MySQL, PostgreSQL; SQL; ETL pipelines; REST APIs; FHIR and DHIS2 interoperability
Analytics & Reporting	Power BI, Excel; operational reporting, KPI and monitoring dashboards
Governance & Leadership	ISO/IEC 20000 (Lead Implementer and Lead Auditor), ITIL incident, problem and change management; SLA and vendor management; team coordination and user training
Willing to learn	GIS

Professional Experience

Manager, IT Infrastructure & Security

NCBA Bank Rwanda PLC • Full-time • Jun 2026 – Present

Lead infrastructure, cybersecurity and technology operations supporting mission-critical banking services across 9+ branches, collaborating with NCBA Group teams on shared standards, risk controls and operational resilience. Nominated IT Risk Champion.

- Oversee enterprise infrastructure for 100+ servers across Windows and Linux, Active Directory, virtualization, enterprise storage, backup platforms and critical banking systems.
- Lead disaster recovery and business continuity, including VMware replication, Veeam backup and recovery, DR failover testing and recovery validation; met RTO/RPO targets in each recovery test.
- Strengthen cybersecurity through access management, MFA, privileged access controls, endpoint protection, server hardening and patch management.
- Manage 10+ technology vendors and Level 2/3 support partners, monitoring service performance, SLA compliance and resolution of critical incidents.
- Support IT risk management and regulatory compliance (BNR, Rwanda Law No. 058/2021, Cyber Security Authority) and internal and external audits through controls, documentation and remediation follow-up.
- Led NCBA Rwanda's ISO/IEC 20000 certification as ITSM Lead for Rwanda, supervising the Rwanda infrastructure team and working with NCBA Group-wide managers on service-management processes, controls and governance.
- Monitor service KPIs, availability and operational dashboards; coordinate technology change governance and cross-functional initiatives across infrastructure, security, applications and databases.

Assistant Manager, IT Infrastructure & Security

NCBA Bank Rwanda PLC • Full-time • Aug 2024 – Jun 2026

Managed enterprise IT infrastructure, security and operations for mission-critical banking systems; promoted to Manager in June 2026.

- Managed enterprise infrastructure (servers, networks, virtualisation, storage) supporting high-availability banking systems.
- Coordinated incident, problem and change management; supported ISO 27001 and banking regulatory compliance.
- Administered AWS and Azure environments, applying Infrastructure as Code and scripted automation.
- Led the upgrade of NCBA's core infrastructure.
- Worked on the infrastructure upgrade supporting the T24 core banking system.
- Worked on the infrastructure upgrade supporting the IBPS payment system.
- Worked on the upgrade of the NCBA NOW mobile banking app.

Consultant

Oak Industries Ltd • Remote, consulting • Jan 2026 – Sep 2026

- Developed more than 3 Power BI dashboards for private-sector clients to improve reporting, monitoring and business decisions.
- Built an automated data-processing pipeline that integrates information from multiple sources into a unified backend, including a social-monitoring and market-intelligence backend.

- Developed a multilingual (Kinyarwanda, French, English) customer-feedback classification system using Python, API integrations and cloud deployment.
- Managed client engagements from requirements gathering through solution design, implementation and delivery.

Technical Lead

Africa Digital Health Networks (ADHN) • Remote, part-time • Sep 2023 – Sep 2025

Led development of the digital collaboration platform for the Africa Digital Health Networks (ADHN), a continent-wide network launched at the Africa HealthTech Summit in Kigali in 2023, with members in 43 countries at launch.

- Led technical development of the platform for a geographically distributed health-sector network.
- Developed data integration workflows, including ETL pipelines, connecting systems through APIs and FHIR/DHIS2 interoperability.
- Oversaw application architecture on Azure and AWS (Python/Django, Node.js, React), security, performance and continuous improvement.
- Coordinated engineers and cross-functional stakeholders across countries to deliver solutions aligned with user needs.

Senior IT Engineer / System Administrator

Cogebanque PLC → Equity Bank Rwanda (merger) • Full-time • Jan 2023 – Aug 2024

Administered core banking infrastructure through a major merger, maintaining 24x7 operations with no customer-facing downtime.

- Administered servers, storage, virtualisation, networks and databases supporting core banking applications.
- Implemented backup, replication, disaster recovery testing and security hardening to protect critical financial data.
- Led infrastructure integration across 40+ branches merged with Equity Bank; coordinated vendors and supported compliance audits.
- Managed Linux and Windows servers, Active Directory and database backups, with access control and patching across the estate.
- Automated routine administration and monitoring with Bash and Python scripting, including alerting and system health checks.

Senior IT Specialist

RTI International (USAID-funded programme) • Full-time • Jan 2020 – May 2022 • Multi-country

- Delivered ICT infrastructure, support and security across the programme's sites in 6 countries.
- Introduced structured IT service processes, asset management, user training and manuals; managed vendors and ensured donor compliance.
- Provided second-level IT support and incident management; trained 50+ staff in IT systems and cybersecurity awareness.
- Coordinated contracted services and support desks to resolve requests efficiently.

Full-Stack Software Developer

Idex Africa • 2018 – 2019

Digital transformation and platform design firm serving banks and media groups in Uganda.

- Built web and mobile applications with Python/Django, Node.js, React and PHP, including REST APIs.

Africa Smart Investments Distribution (ASID)

Kigali • Jan 2016 – Dec 2017

Software Developer

Jan 2017 – Dec 2017

- Designed algorithms and flowcharts; produced clean code and integrated, debugged and upgraded software.
- Verified and deployed programs and systems; gathered user feedback to recommend improvements.

Technology Support Technician

Jan 2016 – Dec 2016

- Provided end-user support for computers, networks and printing; coordinated contracted services for help desk requests.
- Trained staff on hardware and productivity software (Mac OS, Windows, MS Office, Gmail).

Education

MBA in Artificial Intelligence • Nexford University • In progress, expected 2027

BSc Computer Science • African Leadership University

Certifications

IT Governance & Security	ISO/IEC 20000 Lead Implementer • ISO/IEC 20000 Lead Auditor • ISO/IEC 27001 Lead Implementer • Google IT Support & Cybersecurity
Cloud & Networking	AWS Certified Cloud Practitioner • Microsoft Azure Fundamentals • Cisco CCNA • Microsoft 365 Administration
In progress	PMP • CISSP

Languages

English (fluent) • French (working) • Kinyarwanda (native)
